Program Narrative

1. Implementation plan for the program. This should include the:
 - a. Strategy and methodology for recruitment;
 - b. Plans to utilize members in emergency situations;
 - c. Any additional programmatic information specific to the program.
2. Identify the emergency management and partner organizations, or the targeted population area whose emergency management needs will be directly benefited by this program.

CERT is advertised on the county website. The county website includes a volunteer webpage for residents interested in working for various county offices. Volunteers completing the OEM or county volunteer application are directed to the Citizen Corps and CERT websites, as completion of basic CERT academy is mandatory for volunteer positions. This linkage allows

the Pasco OEM to utilize its volunteer Citizen Corps and CERT members in a variety of functions, facilitating greater recognition and respect among the first responder community. Linking CERT to the agency volunteer service, which expands the traditional membership to those who may consider themselves unable to participate in traditional CERT activities due to age or disability, provides comprehensive training for volunteers engaged in outreach or public education efforts. Citizens who are unable to complete the physical requirements of CERT may work with Citizen Corps.

The Pasco OEM works diligently with surrounding communities and offers the opportunity to participate in regional events as well as those originating from the home office, greatly expanding the opportunities for training and exercises in Tampa Bay. CERT members are encouraged to assume leadership positions within the Citizen Corps and to bring the CERT message to their workplace and neighborhoods. This allows CERT members to provide potential members the opportunity to learn about the program and to suggest additional training topics and exercises for current members to increase and maintain their skills.

The Pasco County CERT teams have been integrated into the County's Comprehensive Emergency Management Plan (CEMP). Represented under ESF 6 for mass care and ESF 15 for volunteers and donations. CERT members will be utilized within their own neighborhoods during disaster situations, in order to provide size up, triage, and elementary first aid services to survivors in the event of injury. CERT volunteers who are interested may also attend shelter training, PODS training, crisis intervention and disaster psychology training. CERT and MRC volunteers under the Citizen Corps Council will also be available to assist in community resource support and provide assistance to victims within shelters.

The Pasco County OEM envisions a multi-tiered volunteer service, with Citizen Corps serving as the educational and resource branch and CERT taking on operational and logistic responsibilities in community events, disaster preparation, training on chemical, biological and radiological hazards and response and recovery functions under the auspices of the EOC. CERT teams may also provide emergency preparedness training for individuals and businesses. The use of the Map Your Neighborhood concept provides a multi-tiered approach to public education by engaging neighbors in proactive assessment of their own communities and facilitates a "Neighbor helping Neighbor" approach to emergency preparedness and response.

The CERT/Citizen Corps Council model has the potential to become a premier volunteer service program in Pasco County. The agency determined that soliciting feedback from CERT members, instructors and the general populace was imperative prior to implementing any changes in the program. The agency received feedback that was invaluable for the effective growth of the program. The use of a skills-based volunteer model and targeted, neighborhood outreach through participation in cultural and civic events, may attract members of the population not traditionally served by civic groups.

CERT teams are being trained to spread a message that has its origins in American culture: neighborhood and individual reliance. The promulgation of awareness messages aimed at the general public as well as information, inclusion, and structured training for those wishing further involvement, affords every citizen the best possible chance at surviving an adverse event with minimal injury or trauma

Targeted Population: The Pasco County Office of Emergency Management is the primary emergency planning and coordination service for Pasco County. The office works with city and local officials to ensure adequate planning and logistics support for residents. The CERT/Citizen Corps programs are open to all community residents. Targeted outreach services are directed towards senior citizens and economically underserved and disabled residents who are considered at risk for marginalization, injury or loss in the event of a disaster.

Allowable Cost and Eligible Activities

I. Categories and Eligible Activities

The 2016 EMPG Funding Guidance allowable costs are divided into the following categories: **organizational, planning, training, exercise, and equipment.**

Allowable Costs

A. Organization

Per the *Robert T. Stafford Disaster Relief and Emergency Assistance Act*, as amended, (42 U.S.C. §§ 5121-5207), EMPG Program funds may be used for all-hazards emergency management operations, staffing, and other day-to-day activities in support of emergency management. Personnel costs, including salary, overtime, compensatory time off, and associated fringe benefits, are allowable costs with EMPG Program funds. These costs must comply with 2 C.F.R. Part 200, Subpart E – Cost Principles.

Mandatory Training and Exercise Requirements for EMPG funded employees only

All EMPG Program funded personnel shall complete the following training requirements and record proof of completion: NIMS Training, Independent Study (IS) 100, IS 200, IS 700, and IS 800.

Eligible "Organization" items include:

- Travel to/from meetings and conferences related to emergency management
- Travel to training and/or exercises related to emergency management
- Other Personal/Contractual Services
 - Reimbursement for services by a person(s) who is not a regular or full time employee filling established positions. This includes but is not limited to, temporary employees, student or graduate assistants, fellowships, part time academic employment, board members, consultants, and other services.
 - Consultant Services require a pre-approved Contract or purchase order by Volunteer Florida. These requests should be sent to the grant manager for Volunteer Florida for review.

B. Planning

Planning spans all five National Preparedness Goal (the Goal) mission areas and provides a baseline for determining potential threats and hazards, required capabilities, required resources, and establishes a framework for roles and responsibilities. Planning provides a methodical way to engage the whole community in the development of a strategic, operational, and/or community-based approach to preparedness.

Plans should have prior review and approval from the respective DEM state program. Funds may not be reimbursed for any plans that are not approved.

C. Training

EMPG Program funds may be used for a range of emergency management-related training activities to enhance the capabilities of local emergency management personnel through the establishment, support, conduct, and attendance of training. Training activities should align to a current, Multi-Year TEP developed through an annual TEPW. Training should foster the development of a community oriented approach to emergency management that emphasizes engagement at the community level, strengthens best practices, and provides a path toward building sustainable resilience.

EMPG Program funds used for training should support the nationwide implementation of NIMS. The NIMS Training Program establishes a national curriculum for NIMS and provides information on NIMS courses; Sub-Recipients are encouraged to place emphasis on the core competencies as defined in

the NIMS Training Program. The NIMS Training Program can be found at <http://www.fema.gov/training-0>.

For additional information on review and approval requirements for training courses funded with preparedness grants please refer to the following policy: http://www.fema.gov/media-library-data/1115d44e06367bb89510aafbe79c1875/FINAL_GPD+Training+Three+for+Free+Policy_09+10+13.pdf.

Additional types of training or training related activities include, but are not limited to, the following:

- Developing/enhancing systems to monitor training programs
- Conducting all hazards emergency management training
- Attending Emergency Management Institute (EMI) training or delivering EMI train-the-trainer courses
- Attending other FEMA-approved emergency management training
- State-approved, locally-sponsored CERT training
- Mass evacuation training at local, state, and tribal levels

Allowable training-related costs include the following:

- **Funds Used to Develop, Deliver, and Evaluate Training.** This includes costs related to administering the training: planning, scheduling, facilities, materials and supplies, reproduction of materials, and equipment. Training should provide the opportunity to demonstrate and validate skills learned, as well as to identify any gaps in these skills. Any training or training gaps, including those for children and individuals with disabilities or access and functional needs, should be identified in the Multi-year TEP and addressed in the training cycle. Sub-recipients are encouraged to use existing training rather than developing new courses. When developing new courses Sub-recipients are encouraged to apply the Analysis Design Development and Implementation Evaluation (ADDIE) model for instruction design.
- **Overtime and Backfill.** The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of attendance at FEMA and/or approved training courses and programs are allowable. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the state or unit(s) of local government and has the approval of the state or FEMA, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- **Travel.** Travel costs (e.g., airfare, mileage, per diem, and hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants.** Full or part-time staff or contractors/consultants may be hired to support direct training-related activities. Payment of salaries and fringe benefits must be in accordance with the policies of the state or unit(s) of local government and have the approval of the state or FEMA, whichever is applicable.
- **Certification/Recertification of Instructors.** Costs associated with the certification and re-certification of instructors are allowed. States are encouraged to follow the FEMA Instructor Quality Assurance Program to ensure a minimum level of competency and corresponding levels of evaluation of student learning. This is particularly important for those courses which involve training of trainers.

D. Exercises

All EMPG-funded personnel are REQUIRED to participate in no less than three exercises in a 12 month period.

Allowable exercise-related costs include:

- **Funds Used to Design, Develop, Conduct and Evaluate an Exercise.** This includes costs related to planning, meeting space and other meeting costs, facilitation costs, materials and supplies, travel, and documentation. Sub-Recipients are encouraged to use free public space/locations/facilities, whenever available, prior to the rental of space/locations/facilities. Exercises should provide the opportunity to demonstrate and validate skills learned, as well as to identify any gaps in these skills. Gaps identified during an exercise including those for children and individuals with disabilities or access and functional needs, should be identified in the AAR/IP and addressed in the exercise cycle.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants.** Full or part-time staff may be hired to support direct exercise activities. Payment of salaries and fringe benefits must be in accordance with the policies of the state or unit(s) of local government and have the approval of the state or FEMA, whichever is applicable. The services of contractors/consultants may also be procured to support the design, development, conduct and evaluation of exercises.
- **Travel.** Travel costs (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to the planning and conduct of the exercise activities.
- **Supplies.** Supplies are items that are expended or consumed during the course of the planning and conduct of the exercise activities (e.g., gloves, non-sterile masks, and disposable protective equipment).
- **Implementation of HSEEP.** This refers to costs related to developing and maintaining an exercise program consistent with HSEEP.
- **Other Items.** These costs are limited to items consumed in direct support of exercise activities such as the rental of space/locations for planning and conducting an exercise, rental of equipment, and the procurement of other essential nondurable goods. Sub-Recipients are encouraged to use free public space/locations, whenever available, prior to the rental of space/locations. Costs associated with inclusive practices and the provision of reasonable accommodations and modifications that facilitate full access for children and adults with disabilities are allowable.

Unauthorized exercise-related costs include:

- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) and emergency response apparatus (e.g., fire trucks, ambulances). The only vehicle costs that are reimbursable are fuel/gasoline or mileage.
- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs)
- Durable and non-durable goods purchased for installation and/or use beyond the scope of exercise conduct

E. Equipment

Allowable equipment categories for the EMPG Program are listed on the web-based version of the Authorized Equipment List (AEL) at <https://www.fema.gov/authorized-equipment-list>. Unless otherwise stated, equipment must meet all mandatory regulatory and/or FEMA-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

Allowable equipment includes equipment from the following AEL categories:

- Personal Protective Equipment (PPE) (Category 1)
- Information Technology (Category 4)
- Cybersecurity Enhancement Equipment (Category 5)
- Interoperable Communications Equipment (Category 6)

- Detection Equipment (Category 7)
- Power Equipment (Category 10)
- Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) (Category 11)
- CBRNE Incident Response Vehicles (Category 12)
- Physical Security Enhancement Equipment (Category 14)
- CBRNE Logistical Support Equipment (Category 19)
- Other Authorized Equipment (Category 21)

If Sub-Recipients have questions concerning the eligibility of equipment not specifically addressed in the AEL, they should contact their CERT Program Manager for clarification.

II. Maintenance and Sustainment

The use of FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable under all active grant awards, unless otherwise noted.

EMPG Program grant funds are intended to support the Goal and fund activities and projects that build and sustain the capabilities necessary to prevent, protect against, mitigate the effects of, respond to, and recover from those threats that pose the greatest risk to the security of the Nation. In order to provide Sub-Recipients the ability to meet this objective, the policy set forth in GPD's IB 379 (<http://www.fema.gov/grant-programs-directorate-information-bulletins>) (Guidance to State Administrative Agencies to Expedite the Expenditure of Certain DHS/FEMA Grant Funding) allows for the expansion of eligible maintenance and sustainment costs, which must be in: (1) direct support of existing capabilities; (2) must be an otherwise allowable expenditure under the applicable grant program; (3) be tied to one of the core capabilities in the five mission areas contained within the Goal, and (4) shareable through the EMAC. Additionally, eligible costs may also be in support of equipment, training, and critical resources that have previously been purchased with either federal grant funding or any other source of funding other than DHS/FEMA preparedness grant program dollars. Additional guidance is provided in FEMA Policy FP 205-402-125-1, *Maintenance Contracts and Warranty Coverage Funded by Preparedness Grants*, located at: <http://www.fema.gov/media-library/assets/documents/32474>.

Unallowable Costs

- **Prohibited Equipment:** Grant funds may not be used for the purchase of Prohibited Equipment. Refer to Information Bulletin 407 *Use of Grant Funds for Controlled Equipment* for the complete *Prohibited Equipment List*. For additional information on Prohibited Equipment see Executive Order (EO) 13688 Federal Support for Local Law Enforcement Equipment Acquisition (<https://www.gpo.gov/fdsys/pkg/DCPD-201500033/pdf/DCPD-201500033.pdf>), and the Recommendations Pursuant to Executive Order 13688 (https://www.whitehouse.gov/sites/default/files/docs/le_equipment_wg_final_report_final.pdf).
- Expenditures for weapons systems and ammunition
- Costs to support the hiring of sworn public safety officers for the purposes of fulfilling traditional public safety duties or to supplant traditional public safety positions and responsibilities
- Activities and projects unrelated to the completion and implementation of the EMPG Program

In general, Sub-Recipients should consult with their CERT Program Manager prior to making any investment that does not clearly meet the allowable expense criteria established in this Guidance.
