Award of all sub-grantee funding as described herein is contingent upon award by the Corporation for National & Community Service of the full amount of Volunteer Generation Fund program funding requested by Volunteer Florida.

1. Background

Volunteer Florida is the Governor's lead agency for volunteerism and national service in Florida, administering more than \$43 million in federal, state, and local funding to deliver high-impact national service and volunteer programs in Florida. Volunteer Florida promotes and encourages volunteerism to meet critical needs across the state. Volunteer Florida also serves as Florida's lead agency for volunteers and donations before, during, and after disasters. For more information, visit: www.volunteerflorida.org.

2. Grant Period

Volunteer Generation Fund proposals must be submitted to Volunteer Florida in the Blackbaud online portal by Tuesday, August 16, 2019 at 5:00pm EDT. The grant period is a twelve-month period, beginning October 1, 2019 and ending September 30, 2020. Volunteer Florida reserves the right to allocate funds based on internal programmatic and fiscal review and availability of funding. The contract period will be from the date of contract receipt through September 30, 2020.

3. Grant Overview

Volunteer Florida administers the Volunteer Generation Fund (VGF), an initiative of the Corporation for National & Community Service (CNCS) that focuses investment on volunteer management practices that increase volunteer recruitment and retention. Volunteer Florida seeks to support local organizations to increase their capacity to recruit, manage, support, and retain skills-based volunteers to serve in

high-value volunteer assignments.

In anticipation of federal funding for the Volunteer Generation Fund program for FY 2019-2020, Volunteer Florida will make available up to \$395,000 for an estimated twenty-four (24) organizations serving the needs of Floridians. New applicant organizations will be eligible to receive \$15,000 in grant funding. Organizations entering their third year of VGF funding will be eligible to receive \$20,000 in grant funding. All sub grantees will receive additional training support associated with the Volunteer Generation Fund program. Sub-grants will be awarded only in the amounts listed. New organizations and organizations entering their third year of funding should request \$15,000 or \$20,000, respectively.

Volunteer Florida's VGF program is a skills-based volunteer program using evidence-based principles of service and the concept of volunteering as a pathway to work. Volunteer Florida's VGF program serves both the volunteers and the individuals receiving the volunteer service.

Overarching program goals for the FY 2019-2020 VGF program include the following: (1) service organizations with limited resources will have increased capacity; (2) skills-based volunteers will utilize existing skills and gain new skills, which may also be a pathway to employment; and (3) critical community needs will be met.

The VGF program will provide sub-grants to an estimate of twenty-four (24) organizations serving the needs of Floridians, and will also provide each organization with relevant, comprehensive training with an emphasis on increasing the number of skills-based volunteers, service hours, and types of activities. Funding will strengthen the capacity of volunteer organizations to identify resources, challenges, and areas of need. Sub-grantees will receive comprehensive training, funding for program enhancements and ongoing technical assistance, and coaching to establish or strengthen a skills-based volunteer program.

7. Funding Criteria

A. Skills-based Volunteering

Skills-based volunteering is an innovative approach that is rapidly gaining recognition as a powerful driver of both social impact and business value. Skills-based volunteering is a strategic type of volunteerism that exponentially expands the impact of nonprofits by incorporating a range of skills, talents, and education of volunteers and matches them with the needs of nonprofit organizations. Skills-based volunteerism can also serve as a pathway to employment by maintaining employability skills or developing new skills of volunteers. Skilled individual volunteers may offer their particular expertise to a nonprofit agency, while corporate skills-based volunteering may involve employee volunteers working on projects for a nonprofit organization through a structured program developed and managed by their employer. Skills-based volunteering is about matching the right person with the right skills and knowledge, at the right time, to the right project in order to achieve greater impact. By leveraging diverse types of knowledge and expertise, skills-based volunteers help to build and sustain nonprofits' capacity to successfully achieve their missions and goals.

B. Volunteer Management Practices

Successful proposals will demonstrate how the program will effectively engage and track skills-based volunteers and increase organizational volunteer management practices. Each management practice should support at least one of functions for effectively managing volunteers as defined in the report "Volunteering Reinvented: Human Capital Solutions for the Nonprofit Sector" listed below.

1. Market Research and Community Needs Assessments
2. Strategic Planning to Maximize Volunteer Impact
3. Recruiting and Marketing to Prospective Volunteers
4. Interviewing, Screening, and Selecting Volunteers
5. Orienting and Training Volunteers
6. Ongoing Supervision and Management

7. Recognition and Volunteer Development
8. Measuring Outcomes and Evaluating the Process.
