FY 2020-2021
Emergency Management Performance Grant Program
CERT/Citizen Corps Program
Grant Funding Opportunity

Grant Applications Due 5:00 PM EST, July 29, 2020 via Blackbaud
OVERVIEW

Volunteer Florida will make available through a funding application process, up to $120,000 for disaster preparedness, training and education needs of Floridians. Funding amounts are awarded by Volunteer Florida to sub-grantees based on sub-grant application scoring criteria as outlined herein. The maximum amount per sub-grant is anticipated to be $5,000 for training, exercise, equipment, and allowable management and administrative costs (up to 5% of total award) for their participation in the FY 20-21 CERT/Citizen Corps Program. Interested parties may apply for funding for a CERT program, a Citizen Corps program, or both. If seeking funding for both CERT and Citizen Corps, a separate sub-grant application must be electronically submitted for each via Blackbaud. Each sub-grant application may request what they anticipate is needed (not to exceed $10,000), but awards may be restricted to $5,000.

The Emergency Management Performance Grant (EMPG) Program grant application contained herein has been developed to comply with the procedures and requirements contained within Federal and State regulations for the EMPG program.

Included in this document are the forms and necessary information required to apply for the FY 20-21 Emergency Management Performance Grant Program CERT/Citizen Corps Program funding. The funding is administered by Volunteer Florida through the Florida Division of Emergency Management (FDEM) and the U.S. Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA) Program.

The Department of Homeland Security Appropriations Act, includes provisions for funding states and local governments to support efforts to engage citizens in all-hazards prevention, protection, response, and recovery. Volunteer Florida serves as the administrator for these funds in Florida. Volunteer Florida has been designated to assist and support local CERT/Citizen Corps activities through training, technical assistance, and funding.

The mission of the Citizen Corps program is to harness the power of every individual through education, training, and volunteer service to make communities safer, stronger, and better prepared to respond to the threats of terrorism, crime, public health issues, and disasters of all kinds. Citizen Corps is coordinated nationally by the Department of Homeland Security’s Federal Emergency Management Agency. In this capacity, FEMA works closely with other federal entities, state and local governments, first responders and emergency managers, the volunteer community, and the Corporation for National & Community Service. Citizen Corps was created to coordinate volunteer activities that will
make local communities safer, stronger, and better prepared to respond to any emergency situation.

The Community Emergency Response Team (CERT) program is a training program that prepares citizens to help themselves, their families, and their neighbors in the event of a disaster in their community. Through CERT, citizens can learn about disaster preparedness and receive training in basic disaster response skills such as fire safety, light search and rescue, and medical operations. With this training, volunteers can provide critical support by giving immediate assistance to victims before emergency first responders arrive on scene.
